LEARN MORE ABOUT US

GGO International Management formulates and manufactures sustainable solutions for agriculture. Our products are an integral component for all types of agriculture conventional, organic and hybrid operations. GGO International Management's soil amendments, specialty fertilizers, non-toxic pest control are used worldwide. Our sustainable products bridge the gap separating high efficiency conventional farming from nutrient-dense organic crops; Our products and protocols provide farmers with ways to reduce input costs while increasing yields; helping - rebuild soils depleted or destroyed by years of unsustainable farming practices

PASTURE PLUS

Product Description

GGOIM Pasture Plus is an all-natural blended liquid compound fertilizer, approved for use in certified organic operations. Pasture Plus is designed for sustainable grasslands, grazing pasture, hayfields, and any other perennial crops.

Pasture Plus is a blend of hydrolysed Pacific Ocean wild fish proteins, certified organic Louisiana blackstrap molasses, high quality Canadian potassium humic and fulvic acids from the taiga, certified mined minerals, Nova Scotia sea kelp (*ascophyllum nodosum*) and natural fermentation products. Pasture Plus can be applied with any conventional nitrogen fertilizer.

Pasture Plus is very rich in organic matter – over 50% by weight – making it a powerful biostimulant, as well as a nutrient source. The organic matter in Pasture Plus holds moisture in the root zone – keeping grasses and plants greener and healthier in times of less rain. Increasing organic matter also stimulates soil biology – again boosting root and green growth.

Benefits of Use

- Pasture Plus stimulates beneficial soil biology populations and increases organic matter content in soil.
- Pasture Plus increases root mass in grasses, increasing digestible yields and per acre productivity.
- Pasture Plus keeps soluble fertilizers available longer in the root zone, reducing wasted fertilizer.
- Pasture Plus dramatically elevates protein and fat levels in hay and grass analyses.
- Pasture Plus can be applied as a foliar spray to grazing lands with no re-entry time.
- Pasture Plus boosts resistance to drought, heat, and climatic stress
- Pasture Plus is non-toxic to horses, cattle and all other livestock.
- Pasture Plus is approved by AmeriCert International for use in certified organic production.

Application & Rates

- As a grass seed treatment – use a 2% solution of Pasture Plus to wet seeds thoroughly.
- On pastures, hayfields and grasslands – apply 12 litres Pasture Plus per acre diluted at least 10:1 in water.

Storage, Handling and Usage

- **Shake or agitate product before use.**
- Fill day tank with amount of water for dilution first, then add measured amount of Pasture Plus.
- Store out of sunlight in a cool dry area. Do not freeze.
- Close container securely after each use.
- Do not store diluted product. Apply all diluted product within 24 hours.
- Perform all foliar applications in early morning or late afternoon. Do not apply in heat of day.

Sizes

Products are sold in the following sizes:

55 Gallon Drum

275 Gallon Tote

20 Feet Container

40 Feet Container

THE GGO WAY

GGO International are specialists in providing high quality business advice to all types of agricultural business. We have access to the most up to date information and industry ideas, and we continue to develop bleeding edge technology solutions for agriculture.

All advice given to clients is tailored to their specific needs.
